Draw or recreate the Tabernacle with Minecraft or Lego. Include as much detail as you can:

- Bronze altar for animal sacrifices
- Laver - for the priests to wash their hands and feet. They were not allowed any further unless they were clean.
- The inner tabernacle was 2 rooms that only priests were allowed into. Each was separated by a curtain.

The curtains round the edge were white linen. There was one entrance with a coloured curtain. The cloth was blue, purple and red. The same material was used for the curtains to the Holy Place and the Holy of Holies.
| The curtain to the Holy of Holies was called a veil and was embroidered with figures of angels. | Lampstand - candles were kept burning continuously. | Table of Showbread - 12 loaves to represent 12 tribes of Israel. |
| Altar of Incense - for a special fragrance to burn continuously. It was made of wood and overlaid with gold. There was a horn on each corner. | Ark of the Covenant - contained the 2 tablets on which God himself had written the 10 commandments. | Priests were allowed into the Holy Place. Only the High Priest was allowed into the Holy of Holies - and only once a year! |
